

Equipment Service Technician

San-a-Care, Inc. was founded in 1964 and is a full-line distributor of commercial and institutional cleaning products, supplies, and equipment. As a recognized leader in the janitorial industry, we take pride in providing our customers with innovative solutions and personalized care.

We are seeking a dependable individual to join our service department to perform as an in-house and field-based Service Technician / Mechanic. This individual must be well-organized, motivated, detail-orientated and be able to work independently without constant supervision. We want our employees to grow and succeed with us while maintaining their personal lives outside of San-a-Care. Hours are Monday – Friday, full-time shift begins at 7:30am until 4pm. • Annual paid vacation and holidays, Affordable health benefits and company-matched 401K.

Service Technician Job Responsibilities:

Responsible for repair and service on commercial janitorial battery-operated equipment (e.g., auto-scrubbers, sweepers, extractors, floor machines, etc.)

Set-up and test new equipment for shipping.

Complete all related work orders and turn in for billing. Ability to learn our internal operating system to be able to enter billing notes when working in-house.

Establish and maintain strong working relationships with end-users/clients.

Maintain a safe, clean, and orderly work area.

Ability for occasional overnight travel.

Other duties as necessary.

Requirements:

High school diploma, GED or equivalent.

Strong mechanical and electrical trouble shooting ability. Successful applicants have had backgrounds in automotive mechanic, heavy equipment mechanic, forklift technician and janitorial equipment repair.

Clean Driving Record.

Ability to lift of 40-60 pounds when necessary.

Team mentality.

Job Type: Full-time

Pay: Above Industry Standards.
